Public Health Indicators	Rates of cases, hospitalizations and deaths are rising	Rates of cases, hospitalizations and deaths are rising	Rates of cases, hospitalizations and deaths are declining. Testing and tracing are available.	Development and distribution of vaccine to the public. Widespread immunity would be present in the community.

Notes for Phases

PHASE 1 Suspension of in-person worship	PHASE 2 Regathering in person	PHASE 3 Increasing Participation
<ul style="list-style-type: none"> - Allow musicians and clergy to record at church <ul style="list-style-type: none"> o In an effort to begin to introduce the building - Encourage connector groups to meet in yards or small gatherings - Open chapel and oratory on a sign-up basis <p>In this phase we will also begin to Livestream as opposed to pre-recorded offerings. We will need to have A/V equipment in place before entering this phase</p>	<p>Answer questions in Appendix A before entering Phase 2</p> <p>We will begin to allow in-person worship while Increasing number of services</p> <p>Still to be decided.. What time service will be livestreamed?</p>	<p>Decision of number of services will need to be decided before entering this phase. Dependent on human resources, bandwidth, and technical resources.</p>

CONSTANT VARIABLES

- Mask wearing
- Social distancing
- Touchless Thermo Scanning
- CDC cleaning recommendations
- DSO recommendations for worship (i.e. remove hymnals, doors open, no singing, no communion etc.)
